

# Barbour Health and Safety Service for Offshore Professionals

Barbour are the leading provider of online health and safety information – assisting regulatory compliance and best practice. We're the only information provider approved by IOSH & BIFM.

We've developed an information package specifically for safety professionals in the offshore industry.

A Barbour subscription gives you access to a library of over 60,000 pieces of content from over 600 authoritative expert bodies, including; HSE, TSO, Environment Agency, MCGA (Marine and Coastguard Agency) and the EU, more up to date content than any other provider. Barbour answers all your legislation, guidance, case law and research queries on offshore Health, Safety and the Environment. This has all been carefully summarised and kept updated in an intuitive structure by practical consultants, saving you time, which you can spend keeping your organisation safe and compliant.
