Safe and compliant since 1957

Barbour is the oldest and best-known provider of specialist information services to industry professionals.

In 1957, Bobby Barbour formed a company called Architects Specifile. The company was based on collecting manufacturers' trade catalogues and storing them in a filing cabinet. The catalogues were delivered by bicycle to architects based in central London. In 1958, Patrick Barbour, Bobby's brother, joined the company and **Barbour Index** was formed. Shortly after this, Bobby left the company and Patrick took over – and the rest, as they say, is history...

THE PROBLEM IS THAT I DIDN'T KNOW I WAS ON THE JOB, HAD NO INFORMATION AND NO PREPARATION. BARBOUR CAME TO THE RESCUE! I CAN SAFELY SAY THAT ACCESS TO THE SYSTEM HAS SAVED ME TIME, MONEY AND EMBARRASSMENT.
